

## HOW TO USE TIME RECORDER (FOR DRIVER)

### IMPLEMENTING DEVICE BEHAVIOR

The time recorder will work and alarm after starts a car.

### HOW TO CLOCK IN

- 1) Facing the magnetic stripe card to match the symbol on the device.
- 2) Run a card through a card reader at once to sign in. Device will make a "Beep" sound 1 time and sounds may disappear when the sign in is correct.
- 3) Run a card through a card reader until the sound is muted.

### HOW TO CLOCK OUT

- 1) Facing the magnetic stripe card to match the symbol on the device.
- 2) The clock out will be worked on the second time, when a card is running through a card reader. And, make a continue noise "Beep Beep BeepBeep"
- 3) Run a card through a card reader until the sounds come back.

Facing the magnetic stripe card to match the symbol

- Running a card through the device on the first time, to sign in (until the sound is muted.)
- And on the second time, to sign out. (until the beep sounds come back)
